Subject: Telephone Meeting with Pascal Mues, EPA to Discuss City of Eureka Ammonia Modelling Proposal
Attachments: RE: Request for assistance evaluating an ammonia modelling proposal from City of Eureka; RE: Request for assistance evaluating an ammonia modelling proposal from City of Eureka
Location: Pascal just sent a Skype meeting to us. Please join the meeting through his Skype Meeting. We'll use the conference line below if the Skype meeting doesn't work.
Start: 3/26/2020 10:45:00 PM
End: 3/26/2020 11:45:00 PM
Show Time As: Tentative

Recurrence: (none)

Pascal just sent a skype meeting. Hopefully, we'll all connect. If it doesn't work for any reason, we can use the conference line as a backup.

The following info is for use, Only if the Skype call that Pascal set up doesn't work

Conference Call 212-372-3762 Participant Code 299223

Here's the call-in info. Please pull up copies of the documents on your computers. I've heard that there are potential bandwidth issues for Skype meetings. Seems simple enough to conduct this meeting by telephone call only.

I've attached my email chains with Pascal and Amelia Whitson at EPA. The first email also has the City's ammonia proposal and some of my initial comments that Pascal relected on.
